

Cercle d'amateurs de poupées de Québec Doll Club, Canada

The Cercle d'amateurs de poupées de Québec Doll Club presented their fifth exhibit of the fascinating world of dolls on April 29 and 30, 2017, in Saint-Augustin-de-Desmaures, Quebec. This exhibit presented antique and contemporary dolls, doll artists, and the activities of *Le Cercle d'amateurs de poupées de Québec*. Visitors, young and not so young, followed the history of these delicate creations and the artists that created them. This year, additional visiting artists and collectors were invited to display their antique dolls, handcrafted modern dolls, miniatures, miniature houses, and antique Christmas decorations.

Porcelain painting, doll crafting in all its forms, fine sewing, crochet, knitting, embroidery, lace-making, millinery, shoemaking, wig-making, modeling, jewelry, and accessories of all kinds. Dolls are excellent objects with which to teach and learn handcrafting techniques on a small scale. 🎄
